Sections 4.1 and 4.4 of the Revised Disclosure Rules

Subject of the Disclosure
Cebu Link Joint Venture (CLJV) Issued the Notice of Award for the Cebu-Cordova Link Expressway (CCLEX)
Background/Description of the Disclosure

The Cebu Link Joint Venture (CLJV) has been issued the Notice of Award for the “Design and Build” contract of the 8.5-kilometer Cebu-Cordova Link Expressway (CCLEX), the much-anticipated bridge project that will connect Cebu City to the Municipality of Cordova in the island of Mactan.

CLJV is a joint venture of Spain-based Acciona Construccion S. A., and Philippine-based First Balfour Inc. and D. M. Consunji Inc., which all have proven track records in major infrastructure projects.

Cebu Cordova Link Expressway Corporation (CCLEC) issued the Notice of Award to CLJV on November 23, 2017 at an agreed contract amount of Php 22.6 billion.

CCLEC is a subsidiary company of Metro Pacific Tollways Corp. (MPTC), the toll road arm of Metro Pacific Investments Corporation (MPIC), a publicly listed infrastructure holding company. MPTC is the largest toll road concessionaire and operator in the Philippines that has now expanded its business in other Asean countries namely, Thailand, Vietnam and Indonesia. The CCLEX is the first of MPTC’s envisioned toll road expansion projects in Visayas and Mindanao.

Acciona’s Ruben Camba, representing the CLJV, said: “We are delighted to be part of this landmark project. We have put together a very experienced team, and are looking forward to working closely together with the customer to deliver a new toll bridge that will benefit both local communities and the Philippines.”

“We are very confident that we can deliver a quality state-of-the-art bridge that will provide not just travel efficiency but also drive economic growth and productivity in the entire Visayas region, and improve the overall welfare of the Cebuanos,” CCLEC President and General Manager Allan Alfon said.

“We are happy to be given this opportunity to bring to Cebu and share with the Cebuanos and the people in the Visayas in general, our company’s expertise in building and operating world-class highways and bridges to create more opportunities and spur economic growth,” MPTC President Rodrigo Franco said.

CCLEC will build, operate and maintain the toll bridge through a joint venture agreement with the local governments of Cebu City and Cordova Municipality.

CCLEX will have two lanes in each direction and will feature the main navigation span bridge, along with viaduct approach bridges, a causeway, roadway and toll facilities. The span of the bridge allows for shipping traffic and the link is expected to serve at least 40,000 vehicles daily. It will give Cordova direct access to Cebu City and is envisioned to decongest the traffic in the two existing bridges between Mactan and Cebu.

President Rodrigo Duterte led the groundbreaking ceremony for the project in Cordova, Cebu last March 2, 2017. ##
