OIC - Head, Disclosure Department

Gentlemen:

We reply to your request for comments/clarifications on the news entitled "DMCI beefs up capital outlay in 2017 to P28B" posted in Inquirer.net on May 17, 2017. The article reported in part that:

"Consunji-led DMCI Holdings Inc. has earmarked P28 billion for group-wide capital spending this year, as the group seeks to grow its coal mining, power, property, power and nickel mining businesses.

This amount is much higher than last year's capital outlay of P16.5 billion, DMCI Holdings chief finance officer Herbert Consunji said in a press briefing after the company's stockholders' meeting.

The capital spending budget for this year excludes the P14-billion capital spending by Maynilad Water Services Inc., where the group has a 27.19- percent interest.

Maynilad's budget this year is higher than the P10 billion spent last year.

. . . .

Of group-wide capital spending, Semirara Mining and Power Corp. will have an allotment of P14.5 billion. Semirara is steadily increasing its capacity to a maximum of 16 million metric tons to take advantage of favorable coal prices and local market demand.

. . . .

For property arm DMCI Homes, the capital spending budget is P11.6 billion.

. . . .

Off-grid power producer DMCI Power has a capital spending budget of P1 billion this year while construction arm DM Consunji Inc. and nickel miner DMCI Mining has earmarked P900 million and P800 million, respectively.

. . . ."

We would like to confirm that the planned capex spending of DMCI group for this year is P28 billion.

Further to this, we wish to clarify the following:

1. The P14.5 billion capex budget allotted for 2017 by SMPC represents consolidated Capex budget. The coal segment allotted around P7 billion, inclusive of capital expenditures for the target increase in coal mining capacity. The balance of P7.5 billion is for the power segment's capex requirement for 2017 covering normal maintenance capex and equipment enhancements for the Calaca power units under Sem Calaca Power Corporation and Southwest Luzon Power Generation Corporation, the wholly-owned operating power subsidiaries of SMPC.
2. DMCI Mining earmarked P8 million instead of the P800 million capex budget reported.

We hope this clarifies the matter.

Thank you.
